Use-Case Specification: Search Manga

1. Search Manga

1.1 Brief Description

The use case “Search Manga” is concerned with what an actor can control while searching for the manga, using provided filters and their text input.

2. Flow of Events

2.1 Basic Flow

1. The user navigates to the search bar.
2. The user inputs their search text, and/or uses the provided tags to filter by genres.
3. The user moves on to the “Interact Manga” use case.

2.2 Alternative Flows

2.2.1 *The search yielded nothing.*

1. The system displays “Nothing matched the user’s search query”.
Use case is terminated.

3. Special Requirements

3.1 Accessibility

The options available must be made accessible to all types of users, which also include supporting hearing-impaired users by means of closed captions, and supporting vision-impaired users by means of alternative text and labels.

4. Preconditions

4.1 The user’s device is connected to the Internet

4.2 The user’s device has access to a keypad or a keyboard.
