Sprint 3 Review Meeting

==========30/11/2024==========

Team members present:
- Nguyễn Thành Nhân
- Lâm Gia Lạc
- Nguyễn Quốc Hưng

Team members absent:
- Lâm Quốc Bảo

What went well:
- None

What went wrong:
- A lot of coding tasks are behind schedule.

Problems and causes:
- Members' personal schedules are too packed.
- The time it takes to complete a coding task is longer than expected.
- The group didn't agree on what Front End technologies to use, so the Front End code is not well organized right now.

What can be done differently to improve the next sprint:
- Readjust the schedule for Front End coding.

What lessons can we learn:
- Agree on what technologies to use at the start of the planning phase.
- Always overestimate the time to complete a task.
