Use-Case Specification: Interact Manga

1. Interact Manga

1.1 Brief Description

The use case "Interact Manga" is concerned with what an actor can do to change states, fields and variables related to the manga from a reader's view.

2. Flow of Events

2.1 Basic Flow

1. The user opens the Manga they would like to interact with.
2. The user can choose an action with visible and accessible buttons and related forms to interact with the manga. For example, they can choose to "favorite" the Manga (by adding it to their library) or leave a comment.

2.2 Alternative Flows

2.2.1 Leaving a comment

1. The user chooses the option "Comment".
2. The user specifies the comment they want to leave.
3. The user submits the form.

2.2.1.1 The manga author disabled comments

1. The user is notified that the comment section is disabled.
2. The user is redirected back to that Manga's page.

Use case is terminated.

3. Special Requirements

3.1 Accessibility

The options available must be made accessible to all types of users, which also include supporting hearing-impaired users by means of closed captions, and supporting vision-impaired users by means of alternative text and labels.

4. Preconditions

4.1 The user's device is connected to the Internet

4.2 The user must be logged in

4.3 The manga must be available

5. Postconditions

5.1 If it was favoriting the Manga, the system must store that information in the user's library.

5.2 If it was leaving a comment, the system must add a comment to that specific Manga's section and it is made visible to everyone.

6.   Extension Points

6.1   Leave a comment

On flow step 2, the user may choose to leave a comment as an option to interact. (Leave a comment use case).

6.2   Favorite a manga

On flow step 2, the user may choose to add a Manga to their personal reading list/library. (Favorite use case).
